OFFICE of CAPITAL and FORENSIC WRITS

November 20, 2023

Honorable Greg Abbott, Governor Honorable Glenn Hegar, Texas Comptroller Jerry McGinty, Director, Legislative Budget Board Lisa Collier, State Auditor

Dear Honorable Sirs and Madam:

We are pleased to submit the Annual Financial Report of the Office of Capital and Forensic Writs for the fiscal year which ended August 31, 2023, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with the requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis- for State and Local Governments, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the state auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report (CAFR); therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

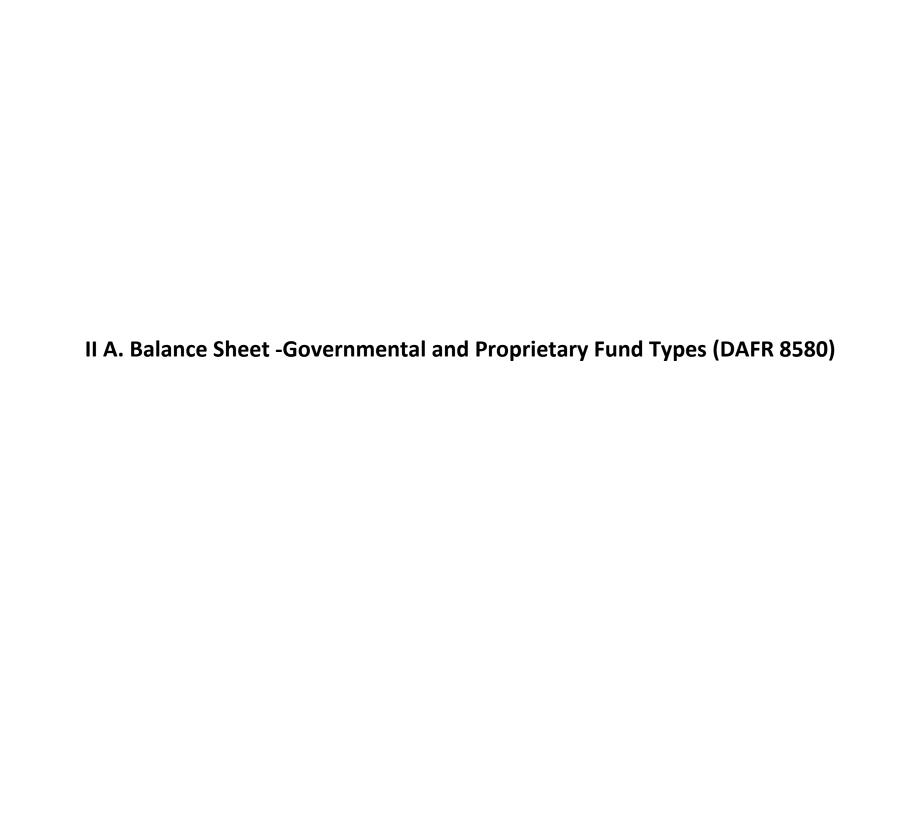

If you have any questions, please contact our Finance Team Lead, Joy Right, at (512) 463-8518.

Sincerely,

Benjamin B. Wolff

Director

III Notes to the Financial Statements

Note 1: Summary of Significant Accounting Policies

Entity

The Office of Capital and Forensic Writs (OCFW) is an agency of the State of Texas, and its financial records comply with state statutes and regulations. This includes compliance with the Texas Comptroller of Public Accounts' Reporting Requirements for State Agencies.

The Office of Capital Writs was created by the Eighty-first Texas Legislature, and was renamed the Office of Capital and Forensic Writs by the Eighty-Fourth Legislature (S. B. 1743). Since 2010, OCFW has proudly served an essential function for the State of Texas and the criminal justice system: working to ensure that convictions and sentences are constitutional, reliable and untainted by questionable forensic science. OCFW does this through two program: capital post-conviction representation and forensic science post-conviction representation. In capital post-conviction representation, OCFW represents approximately 70% of persons sentenced to death in mandated initial habeas proceedings that consider the constitutionality of convictions and sentences. In forensic writ representation, OCFW represents incarcerated Texans where questionable forensic science contributed to their conviction, in cases referred by the Texas Forensic Science Commission after an investigation into professional negligence, misconduct of forensic analysts, or unsupported forensic analysis.

Senate Bill 280 (87th R.S.) established an oversight board for OCFW to ensure continued institutional success, independence, and good governance in alignment with Texas and national public defender standards. The Oversight Board has five members: three appointed by the Executive Director of the Texas Indigent Defense Commission; two appointed by the State Bar of Texas.

Due to the significant changes related to Governmental Accounting Standards Board Statement No 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to be in compliance with generally accepted accounting principles (GAAP). The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas Comprehensive Annual Financial Report; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

Fund Structure

The accompanying financial statements are presented on the basis of funds, and account groups, each of which is considered a separate accounting entity.

Governmental Fund Types

General Fund (GAAP FT01): The principal operating fund used to account for most of the state's general activities. It accounts for all financial resources except those accounted for in other funds.

<u>The Fair Defense Fund (5073)</u> is used by the Texas Indigent Defense Commission to provide financial and technical support to counties to develop and maintain quality, cost-effective indigent defense systems.

The Coronavirus Relief Fund (0325) is used to offset expenses resulting from responses to COVID-19 at the local jurisdiction level statewide. Pursuant to Section 29(a)(3) of Senate Bill 8 (SB 8) passed by the 87th Legislature, Third Called Session, and signed into law by Governor Abbott, the amount of \$200,000.00 is available to the Office of Capital and Forensic Writs (OCFW) from the Coronavirus State Fiscal Recovery Fund (42 U.S.C. Section 802) established under the American Rescue Plan Act of 2021 (Pub. L. No. 117-2). Pursuant to Section 29(a) (3) of SB 8, these funds are appropriated for the purpose of addressing the backlog in court cases and paying costs related to the coronavirus disease pandemic, for the two-year period beginning on November 8, 2021.

Capital Asset Adjustment Fund Type: This fund is used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type: This fund is used to convert governmental fund types' debt from modified accrual to full accrual.

Fiduciary Fund Types

Fiduciary Agency Funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment, and remittance of fiduciary resources to individuals, private organizations, or other governments.

Basis of Accounting

The basis of accounting determines when revenues and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental fund types that build the fund financial statements are accounted for using the modified accrual method basis of accounting. Under the modified accrual, revenues are recognized in the period in which they become both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year end.

The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year for Fund Financial Statements prepared on the modified basis of accrual. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual method of accounting. Activities included in these fund types are: capital assets, accumulated depreciation, unpaid employee compensable leave, the unmatured debt service (principal and interest) on general long-term liabilities, long-term capital leases, long-term claims and judgments, and full accrual revenues and expenses.

Budget and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the legislature and approved by the Governor (the General Appropriations Act). Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, and Fund Balances

ASSETS

<u>Cash and Cash Equivalents</u>: Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

<u>Inventories</u>: Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally utilizing the last-in, first-out method. Inventories for governmental fund types are the purchase method of accounting. The

Office of Capital and Forensic Writs, Agency number 215 – Unaudited

consumption method of accounting is used to account for inventories that appear in the proprietary fund types and the government-wide statements. The cost of these items is expensed when the items are consumed.

<u>Capital Assets</u>: Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year should be capitalized. These assets are capitalized at cost or, if any are purchased, at appraised fair value as of the date of acquisition. Purchases of assets by governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

LIABILITIES

<u>Accounts Payable:</u> Accounts Payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Other Payables: Payables are the accrual at year-end of expenditure transactions. Payables may be included in either the governmental or proprietary fund types (Current). There are no payables not expected to be paid within one year (Non-Current).

Employees' Compensable Leave Balances: Represent the liability that becomes "due" upon the occurrence of relevant events such as resignations, retirements, and uses of leave balances by covered employees. Liabilities are reported separately as either current or noncurrent in the statement of net assets. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

FUND BALANCE/NET ASSET

The difference between fund assets and liabilities is 'Net Assets' on the government-wide, proprietary, and fiduciary fund statements, and the 'Fund Balance' is the difference between fund assets and liabilities on the governmental fund statements.

Non-spendable Fund Balance includes amounts that cannot be spent because they are either not in a spendable form or legally or contractually required to be maintained intact.

<u>Restricted Fund Balance</u> represent resources with constraints placed upon the use of the sources by either externally imposed by creditors (such as debt covenants), grantors, contributors, laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Office of Capital and Forensic Writs, Agency number 215 – Unaudited

Committed Fund Balance can only be used for specific purposes pursuant to constraints imposed by the formal action of the state's highest level of decision-making authority (the Legislature). These amounts cannot be used for any other purpose unless the Legislature removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

<u>Assigned Fund Balance</u> represent amounts constrained by the intent of an agency head or governing board to use the resources for specific purposes, and the amount is neither restricted nor committed.

<u>Unassigned Fund Balance</u> is residual classification for the general fund. Represent amounts that was not assigned to other funds and have not been restricted, committed, or assigned to specific purposes within the general fund.

INTERFUND ACTIVITIES AND BALANCES

This agency may have the following types of transactions between funds:

<u>Transfers</u>: Legally required transfers that are reported when incurred as 'Transfers In' by the recipient fund and as 'Transfers Out' by the disbursing fund.

<u>Reimbursements</u>: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund and another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.

<u>Interfund receivables and payables:</u> Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or sooner, it is classified as "Current", repayment for two (or more) years is classified as "Non-current".

<u>Interfund Sales and Purchases:</u> Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund.

The composition of the agency's Interfund activities and balances are presented in Note 12 if applicable.

Note 5: Long Term Liabilities

Changes in Long-Term Liabilities

During the year ended August 31, 2023, the following changes occurred in liabilities:

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued, in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. An expense and liability for proprietary fund types are recorded in the proprietary funds as the benefits accrued to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

Note 12: Interfund Activity and Transactions

The General Revenue Fair Defense Fund, 5073, is a shared fund with the Office of Court Administration. The fund receives court cost from defendants convicted under certain section of the Penal Code. Following is the interagency transactions for this fund.
